参考書  
/ Reference

The course is intensive, but I will conduct discussion-driven lectures and facilitate peer-to-peer learning in line with truly participatory approaches.

On the first day, I will offer an overview of the course and present the topic of the two written assignments. During the course days that last three periods, you will have one hour to develop the two written assignments and start to delineate the components and the topic of your group presentation. On the last day, the students will present their group work. After each hour of class, we will have a break of ten minutes.
